

SYNTHETIC LABORATORY REPORT

EH147-UI-CORRECT-OCR | NOT FOR CLINICAL USE

Patient: EH147 Synthetic Correct Patient ID: EH147-UI-CORRECT

Collection date: 2026-08-01 Report status: FINAL

CHEMISTRY / LIPID PROFILE

LDL cholesterol | 2.4 mmol/L | Ref 1.5-3.4 mmol/L | Specimen: plasma | Method: automated

HDL cholesterol | 1.4 mmol/L | Ref 1.0-2.1 mmol/L | Specimen: plasma | Method: automated

Triglycerides | 1.2 mmol/L | Ref 0.5-1.7 mmol/L | Specimen: plasma | Method: automated

Fasting glucose | 5.0 mmol/L | Ref 3.9-5.6 mmol/L | Specimen: plasma | Collection timing: fasting | Method: automated

Glucose context is printed on the same result line and is part of the captured source evidence.

THYROID

TSH | 2.0 mIU/L | Ref 0.4-4.0 mIU/L | Specimen: serum | Method: automated

Free T4 | 15 pmol/L | Ref 9-19 pmol/L | Specimen: serum | Method: automated

LIVER

ALT | 22 U/L | Ref 7-56 U/L | Specimen: serum | Method: automated

AST | 20 U/L | Ref 10-40 U/L | Specimen: serum | Method: automated

ALP | 75 U/L | Ref 44-147 U/L | Specimen: serum | Method: automated

Total bilirubin | 10 umol/L | Ref 3-21 umol/L | Specimen: serum | Method: automated

Albumin | 43 g/L | Ref 35-50 g/L | Specimen: serum | Method: automated

SYNTHETIC LABORATORY REPORT - CONTINUED

Explicit specimen, method, and collection context retained in source text

KIDNEY

eGFR | 105 mL/min/1.73 m2 | Ref 90-120 mL/min/1.73 m2 | Specimen: serum | Method: automated
Urine albumin/creatinine ratio | 1.5 mg/mmol | Ref 0-3.0 mg/mmol | Specimen: urine | Method: automated

BLOOD COUNT

Hemoglobin | 145 g/L | Ref 120-170 g/L | Specimen: whole blood | Method: automated
White blood cell count | 6.2 x10^9/L | Ref 4-10 x10^9/L | Specimen: whole blood | Method: automated
Platelets | 250 x10^9/L | Ref 150-400 x10^9/L | Specimen: whole blood | Method: automated
MCV | 90 fL | Ref 80-100 fL | Specimen: whole blood | Method: automated

NUTRIENTS

Vitamin D | 75 nmol/L | Ref 50-125 nmol/L | Specimen: serum | Method: automated
Vitamin B12 | 400 pmol/L | Ref 150-700 pmol/L | Specimen: serum | Method: automated
Folate | 20 nmol/L | Ref 10-45 nmol/L | Specimen: serum | Method: automated

INFLAMMATION - FACTUAL ONLY

C-reactive protein | 1.2 mg/L | Ref 0-5 mg/L | Specimen: serum | Method: automated

REPORT PROVENANCE

All values are synthetic. The printed specimen and collection terms are explicit laboratory context.
This document is intended to exercise EH-119 correction and EH-147 Health Profile QA.
